

INSTALLATION INSTRUCTIONS

WARNING

Nylon netting will tear, fray, or break from normal use or abuse. Before each time it is used, check entire net for holes worn in net or any signs of wear or abuse. Repair these worn areas immediately before using. Call **JUGS** toll free at 800-547-6843 for assistance and repair materials.

Do not allow anyone to stand any closer than six (6) feet from the outside edge of the net. Allow only one batter and one machine operator (or pitcher) in the net at one time. Operator (or pitcher) must use a protective screen and wear a batting helmet for safety.

ATTENTION!

DO NOT secure the bottom of your net to the ground in any manner. This will significantly decrease the useful life of your net and voids the warranty.

Your **JUGS** Net must be installed to **JUGS** specifications as described in the installation instructions. Failing to do so voids the warranty.

Any knots with trailing ends that may be present in our batting cage net are a result of a new spool of twine being loaded, tied and knotted to the spool of twine already in the net loom. This occurs in the manufacturing of all knotted nylon and in no way diminishes the integrity of your net.

To Order, in the USA and Canada, call toll free: 1-800-547-6843
Outside the USA and Canada, call collect: 0-503-692-1635
