

FIXED-FRAME™

L-Shaped

Protective Screen

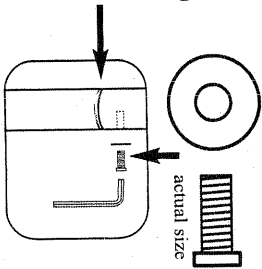

Assembly Instructions

Step 1

Lay parts on the ground, as in this drawing. Frame sections are labeled as shown here.

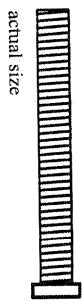

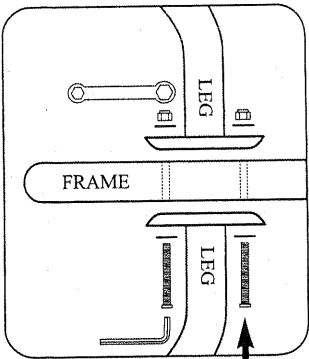

Step 2

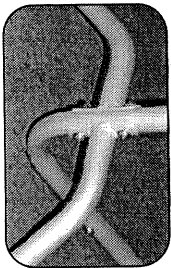

Join the frame sections. Fasten with washers and short bolts. Tighten bolts with the Allen wrench (shown in drawing).

Assembled frame size: 6 1/4" H x 6' W

Step 3

Attach a pair of legs to each end of the frame, using nuts, washers and long bolts. Tighten bolts with the Allen wrench (shown in drawing).

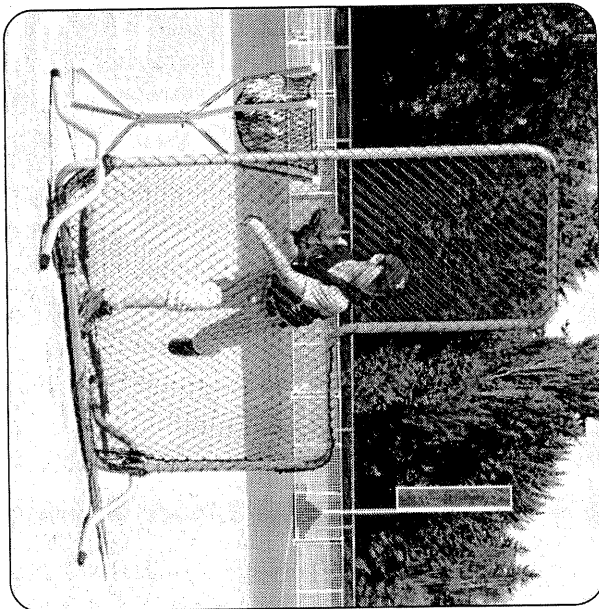

Step 4

Carefully tilt the frame and lay it on the ground.

Stretch netting out, on the ground, in the same shape as the frame. Place the open end of the netting so it touches the top of the frame.

Stand in the center of the frame and begin feeding the netting onto the frame, like a pillowcase, alternating sides as you go.

Stand frame upright, and enjoy!
